SCC Strategic Technology Advisory Committee (STAC)

Committee Purpose:

The Information Technology Committee serves as an oversight committee on matters of Information Technology and is responsible for setting the information technology strategic direction of the college. The committee recommends college wide information technology policies, procedures and standards; reviews and recommends priorities for the development of applications and for capital requests; and serves as an information-sharing forum.

The Committee serves as an advisory panel to the Chief Technology Officer in areas of policy recommendations and technology plans that are to be processed through the colleges shared governance processes.

Strategic Technology Advisory Committee Membership:
In establishing the membership of the Strategic Technology Advisory Committee (STAC), the committee members should be selected according to the principle of shared governance so as to assure an equitable representation across all areas of the district.

The composition of the Strategic Technology Advisory Committee (STAC) shall include representatives from each of the following groups:

- 1 - ALG
- 1 - ASSC
- 2 - CTA
- 3 - Academic Senate
- 1 - CSEA
- 1 - Local 39

The Strategic Technology Advisory Committee (STAC) will be chaired by the Chief Technology Officer (CTO) and Co-Chaired by the Director/Manager of Technology Services and Support.

Additional resources/guess may be asked to participate based on their area of expertise on as as-needed basis. These resources can be members of any department of the campus community as well as consultants/contractors from outside the campus community.

<u>Charged as follows:</u>

- Review, update and maintain Solano's existing Strategic Technology Plan.
- Review and evaluate new and existing technologies.
- Analyze implementation strategies and make recommendations that will optimize the value and effectiveness of the District's technology infrastructure.
- Advise the College on budget impact and needs related to the committee's work.
- Encourage and facilitate sharing of resources by departments.
- Reviews proposals to upgrade and expand the infrastructure, network servers and workstations, helpdesk software and support staff. Advise on new services that should be offered.
- Develop technology standards and periodically review and recommend revisions.
- Review and recommend policies and procedures.
- Recommend programs to stimulate innovation in the use of technology.
- Create Working Groups to analyze and develop recommendations for specific questions or issues.
