Committee Goals and Self-Assessment for Academic Year 2017-18

Part 3: Complete Self-Assessment Narrative:

Self-Assessment

- To what degree has the committee met its roles and responsibilities?

The committee has been functioning smoothly, especially considering the new chair and new members, the new procedures, and the heavy schedule.

- How can the committee improve its effectiveness in meeting these roles and responsibilities?

The committee will run even smoother as the members gain more experience with the new procedures

- How effective was the committee in completing its initiatives?
- How might the committee improve its effectiveness in regard to completing initiatives?

The committee will run even smoother as the members gain more experience with the new procedures

- How effective was the committee in impacting student success?

Maintaining a rigorous and current curriculum lies at the heart of student success, but since its effect is indirect, the effectiveness is difficult to assess.

- How might the committee improve its effectiveness in regard to impacting student success?

The committee must continue to function effectively.

- What resources are needed to assist the committee in meeting its initiatives?

The committee MUST continue to have adequate support – an experienced curriculum specialist and academic senate. Curriculum specialist Lisa Abbott and Academic Senate Administrative Assistant Sheila Kaushal have done excellent work; they are indispensable.

Recommendations

- Provide recommendations for changing the description or composition of the committee to achieve its initiatives addressed for next year.

The committee seems to have the right composition, members, and staff.

Academic Senate & Subcommittee

Committee Goals and Self-Assessment for Academic Year 2017-18

- What topics should be addressed by the committee next year?

I would like to institute a comprehensive course review and gain C-ID approval for every course where a C-ID is available and gain AD-T status for every degree that has a TMC.

- Are there additional roles or responsibilities this committee should be addressing?

The committee was just tasked with the approval of course articulation with high schools, although it has not reviewed an example yet. The committee should probably review student pathways, the level above programs and courses. In addition, the committee should participate in efforts around Basic Skills, especially regarding math placement, requirements, and acceleration.

- What issues, initiatives, or work has the committee identified that other committees, service areas, and/or disciplines or Schools should address next year?

Same as above: I would like to institute a comprehensive course review and gain C-ID approval for every course where a C-ID is available and gain AD-T status for every degree that has a TMC. Perhaps the committee should become more involved with the Student Equity Committee and other committees charged with assuring equity since Curriculum is an Equity issue.

The members of the Curriculum Committee should be commended for their hard work. In addition, special recognition should be given to curriculum specialist Lisa Abbott and Academic Senate Administrative Assistant Sheila Kaushal whose work has been exemplary and who have made themselves indispensable.
