Other Information

Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

19.

You will notice a large discrepancy in question 14 regarding degree awards. Our institution-set standard was calculated off of student headcount - the number of students earning a degree. The standard now is the number of degrees awarded. Since many students earn more than one credential, the number is now much larger. If we reported on headcount, as before, our numbers would be more aligned with the institution-set standard.

The stretch (aspirational) goals for certificate (#13a) and degree (#14a) awards were optional metrics in the IEPI, so our college did not set these.

We did not set institution-set standards for our bachelor's program. If this is a requirement, we will be sure to do this. We have had no completers because our first cohort will be finishing this year.

The data included in this report are certified as a complete and accurate representation of the reporting institution.

If you need additional assistance, please contact the commission.
