**6. Additional Instructions and Data Definitions:**

For the purposes of this report, unduplicated headcount is defined as the total number of students (credit and non-credit) enrolled at the end of the general enrollment period (also referred to as first census date). The academic year should include leading summer, fall, winter, and spring terms. If your institution calculates the academic year differently for the purposes of monitoring annual enrollment, you may respond using your local calculation and describe your method in Question 20.

**7. Additional Instructions and Data Definitions:**

Per federal regulations, ACCJC is responsible for monitoring for significant program growth (or decline) that may

potentially impact an institution's ability to meet Accreditation Standards. ACCJC does not determine what constitutes a program for colleges. For the purposes of this report, you may define degree-applicable credit programs as appropriate for the context of your institution's unique mission.

## Distance Education and Correspondence Education

| #   | Question   | Answer   |
|-----|--|--|
| 8.  | Total unduplicated headcount enrollment in distance education in last three years: | 2017-18 <b>6,695</b><br>2018-19 <b>6,762</b><br>2019-20 <b>6,814</b> |
| 8a. | Percent Change 2017-18 to 2018-19: (calculated)                                    | <b>1%</b>  |
|     | Percent Change 2018-19 to 2019-20: (calculated)                                    | <b>1%</b>  |

### 8. Additional Instructions and Data Definitions:

Distance education is defined as education that uses technology to deliver instruction to students who are separated from the instructor(s) and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. For the purposes of this report, include only those courses that are 100% online in your calculation of unduplicated headcount enrollment for distance education. Do not include hybrid courses or courses in which all the class hours are face to face, but some material is posted online.

**IMPORTANT NOTE REGARDING DATA FROM SPRING 2020:** When calculating total DE enrollment for 2019-20, please include 100% online courses from summer 2019, fall 2019, and winter 2020. For Spring 2020, please include only courses that were originally scheduled as 100% online. Omit any courses that shifted to a distance modality due solely to the COVID-19 pandemic.

|    |  |           |
|----|--|-----------|
| 9. | Do you offer Correspondence Education? | <b>No</b> |
|----|--|-----------|

### 9. Additional Instructions and Data Definitions:

Correspondence education is defined as education in which (1) the institution provides instructional materials (and examinations on these materials), by mail or electronic transmission (including transmission via learning management system) to students who are separated from the instructor; and where (2) interaction between the instructor(s) and the student is limited, is not regular and substantive, and is primarily initiated by the student. Online courses or online portions of courses which primarily involve "paperwork" (e.g., reading textbook and other materials posted by the instructor, taking examinations, and submitting assignments) will fall within the definition of correspondence education rather than distance education. If the online portion of a class meets the definition of correspondence education, then even if the class also meets on site, it will be considered a correspondence education course for Title IV qualification purposes. Correspondence education is not considered distance education within the U.S. Department of Education definition (see question 8, above).

**19. Additional Instructions and Data Definitions:**

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2019-20 job placement rate will be the number of students who completed the program in 2018-19.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2018-19, you do not need to report a job placement rate for 2019-20. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition provided that you describe this definition in Question 20.

This year, our Research Office has used the data from the Student Success Metrics. This resulted in lower numbers for some metrics. Consequently, on metrics where the college appears to be below the Institution-Set Standard is mainly the result of this re-calibration and does not necessarily reflect underperforming on the part of the college. Thank you.</b></p> </div> |
