TERMS

Scheduled Sections: The number of distinct course reference numbers scheduled in a particular semester

Actual Sections: The number of actual sections discounting any cross listings.

FTEF: A standardized method for computing faculty load.

FTEF is calculated as Activity Points/45

FTES: 1 FTES is 525 hours of instruction

It is calculated from:

15 hours per week for 17.5 weeks for 2 semesters

FTES is not usually calculated on a student by student basis

(# students per week * # class hours per week * 17.5 weeks) / 525

WSCH (Weekly Semester Credit Hours): WSCH = # students * class hours per week

LOAD: This is a measure of how many student contact hours are generated per faculty member

Efficiency/Load = WSCH/FTEF

A number between 500 and 525 is considered the break-even point, for a 3 unit course this would equate to 33-35 students.

FILL: % of students compared to class max as of census date.

Persistence Rates

Persistence rates below show the percent of students enrolled within the discipline that returned to SCC the next year or the next semester. A student is counted as persisting regardless of what courses they took in the subsequent semesters.

	Fall 2010	Fall 2011	Fall 2012	Fall 2013	Fall 2014
Next Semester	66%	66%	67%	67%	0%
Next Year	45%	46%	45%	41%	0%

TERMS

Scheduled Sections: The number of distinct course reference numbers scheduled in a particular semester

Actual Sections: The number of actual sections discounting any cross listings.

FTEF: A standardized method for computing faculty load.

FTEF is calculated as Activity Points/45

FTES: 1 FTES is 525 hours of instruction

It is calculated from:

15 hours per week for 17.5 weeks for 2 semesters

FTES is not usually calculated on a student by student basis

(# students per week * # class hours per week * 17.5 weeks) / 525

WSCH (Weekly Semester Credit Hours): WSCH = # students * class hours per week

LOAD: This is a measure of how many student contact hours are generated per faculty member

Efficiency/Load = WSCH/FTEF

A number between 500 and 525 is considered the break-even point, for a 3 unit course this would equate to 33-35 students.

FILL: % of students compared to class max as of census date.

TERMS

Scheduled Sections: The number of distinct course reference numbers scheduled in a particular semester

Actual Sections: The number of actual sections discounting any cross listings.

FTEF: A standardized method for computing faculty load.

FTEF is calculated as Activity Points/45

FTES: 1 FTES is 525 hours of instruction

It is calculated from:

15 hours per week for 17.5 weeks for 2 semesters

FTES is not usually calculated on a student by student basis

(# students per week * # class hours per week * 17.5 weeks) / 525

WSCH (Weekly Semester Credit Hours): WSCH = # students * class hours per week

LOAD: This is a measure of how many student contact hours are generated per faculty member

Efficiency/Load = WSCH/FTEF

A number between 500 and 525 is considered the break-even point, for a 3 unit course this would equate to 33-35 students.

FILL: % of students compared to class max as of census date.
