SOLANO COMMUNITY COLLEGE 2+1 STEM SCHOLARSHIP

PROGRAM DESCRIPTION

The 2+1 STEM Scholarship Program (21SSP) is

Launch your Science, Technology,
Engineering or Mathematics college
career

funded by the National Science Foundation (NSF) Scholarships in Science, Technology, Engineering, and Mathematics Program (S-STEM).

The program offers an array of college-provided student services and the support of a cohort of students that will ease your transition from high school to community college and on to a four-year university.

2+1 STEM Scholars will receive annual financial support of \$3,000 per student. This two-year scholarship at Solano will continue for an additional year at the four-year college of your choice, for you to continue to pursue your STEM studies.

By participating in 21SSP, you will fund your own education with little or no debt, be more likely to earn high grades, and will be more likely to transfer to the university of your choice and graduate from that university with high grades.

on the path that leads to success!
