Project Activities

For C: Align Programs for Transfer

Liberal Arts Project: AAT Studio Arts (2.3 Support Transfer Students)   Incomplete

Work with articulation officer to complete TMCs has revealed areas in which courses that should articulate to four-year schools have not been properly articulated.   Changes to non-TMC degrees are made so that students achieving these degrees will qualify for the TMC degree as well, clarifying requirements for students and easing their pursuit of AA/ AA-T degree.

Deadline	Activity	
Spring 2013	Create AA-T degrees in Studio Arts and Art History.	Overdue
Fall 2013	Modify existing degrees	Overdue
Spring 2014	Modify course outlines and objectives	Overdue

All activities related to the project were completed in Spring 2014. The articulation officer has submitted all revisions to the Chancellor's Office. If the Chancellor's Office rejects as aspects of the revisions, then further modifications of courses and/or degrees will be necessary to complete the project. The art department took a survey of students in Spring 2014 to assess to what extent students were aware of the AA-T and AA degrees, and to assess their current degree goals. The department will survey the students again in a year, to determine the level of student awareness of, and desire to achieve, one of the six degrees offered by the department.

Once the TMC for graphic arts has been finalized, modifications will be made to that major to ensure alignment and proper sequencing of courses.

Liberal Arts Project: Emphasize reading and writing across artistic disciplines (1.3 Student Performance)   Incomplete

Enhance language and communication skills by integrating basic skills across all artistic disciplines. Apply culturally- responsive teaching theories and practices to all aspects of language, analytical, and problem-solving skills.

Deadline	Activity	
Fall 2015	Incorporate challenging reading and writing assignments	Not Started
Fall 2015	Support student success in reading and writing assignments	Not Started

Liberal Arts Project: Prepare our students for successful Art transfer (2.3 Support Transfer Students)   Incomplete

Support efficient progress through transfer series by ensuring adequate capacity in core art courses. The art disciplines are vital for re-entry students, seeking to gain traditional and technological skills related to visual literacy and creative problem-solving. Increase enrollment and retention.

Deadline	Activity	
Fall 2013	Eliminate repeatability and rename	Overdue
Spring 2015	Offer the gateway course Art 010 (Art Appreciation) online	Current
Spring 2015	Revise art program	Current

All courses are properly named, numbered, and sequenced. Once the TMC for graphic arts has been finalized, modifications will be made to that major to ensure alignment and proper sequencing of courses.

COMMUNITY COLLEGE

Mathematics and Science Project: Assessment Tool for Chem 010 and Chem 001 (2.1 Support Underprepared Students)   Incomplete

Both Chem 010 and Chem 001 have a high drop rate (as high as 50%). Usually this is due to students not being prepared for the level of math and/or chemistry they are expected to know at the beginning of the course. Currently, the only prerequisites for these courses are a math course and a previous chemistry class. However, there is no time limit on how long ago the math and/or chemistry class were taken, nor the level of difficulty or depth of knowledge of the previous chemistry course. Thus, the chemistry faculty will develop an assessment tool for students planning to enroll in Chem 010 and Chem 001. This guidance tool will help the counseling office place the students in the appropriate chemistry class.

Deadline	Activity	
Fall 2014	Develop the assessment tool	Complete
Fall 2014	Deliver assessment tool	Complete
Fall 2014	Tools returned	Overdue
Spring 2015	Final student Fall term grades	Current
Spring 2015	Deliver assessment tool	Current
Spring 2015	Tools returned	Current
Spring 2015	Meet with counselors and deliver assessment tool	Current
Spring 2015	Final student Spring term grades	Current
Summer 2015	Meet with counselors and deliver revised assessment tool	Not Started

Social & Behavioral Sciences Project: Develop new courses, and/or new modalities in PSYCH (2.3 Support Transfer Students)   Incomplete

Spring 2016	Develop PSYC 6 on-line	Not Started
Spring 2016	PSYC 010: Course Modification from PSYC of Women to PSYC of Gender	Not Started
Spring 2016	Revision of PSYC 5 to reflect changes in DSM	Not Started

Social & Behavioral Sciences Project: Expand ANTH curriculum (2.3 Support Transfer Students)   Incomplete

Increase retention rates by keeping Anthropology students on campus (rather than lose them to other CCs), increase enrollment of new students by offering interesting courses.

Deadline	Activity	
Fall 2014	Write/submit curriculum for Linguistics	Overdue
Spring 2015	Write/submit curriculum for Anthropology of Religion	Current
Spring 2016	Write/submit curriculum for Primate Socioecology	Not Started

Social & Behavioral Sciences Project: Expand online Anthropology offerings (2.3 Support Transfer Students)   Incomplete

Spring 2015	Present to Academic Senate	Current

MESA Project: Apply for external funding (2.3 Support Transfer Students)   Incomplete

External funding will be pursued to support the MESA program at Solano Community College. The program is currently an unendowed program and receives no funding from the University of California Office of the President (UCOP). There are 13 components of the MESA program; some components require funding to fully satisfy the components.

Deadline	Activity	
Spring 2014	Identify eligible funding	Complete
Fall 2014	Apply for NSF STEM Grant	Complete
Spring 2015	Apply for TRIO SSS Grant	Current

MESA Project: Establish and develop the MESA Capital Corridor Alliance (2.3 Support Transfer Students)   Incomplete

 The alliance is modeled after the San Diego MESA Alliance that allows members to develop projects and outreach that is coordinated between the different centers.

Deadline	Activity	
Fall 2014	Attend meeting with potential alliance members.	Complete
Fall 2014	2. Establish objectives for the alliance	Overdue
Spring 2015	Hold first event that is organized through the alliance	Current

Puente Project: Counseling 068: University Transfer Success Class (2.3 Support Transfer Students)   Incomplete

Provides students with a concrete plan for understanding and succeeding in transferring to a four-year college or university.

Deadline	Activity	
Fall 2014	COUN 068	Overdue

Awaiting puente clerical assistant to help track phase 3 students (second year students who successfully completed the first year of Puente classes).

Puente Project: Puente Motivational Conference (2.1 Support Underprepared Students)   Complete

Provide transfer and motivational information for students in Puente Program

Deadline	Activity	
Fall 2014	Participate in Puente Transfer Motivational Conference	Complete

Puente students successfully participated in the Puente Transfer Motivational Conference at UC Davis on Sept. 20, 2014.

Summer 2014	Candidates Selected and Interviewed	Complete
Fall 2015	Cultural Competence Training for Faculty	Not Started

Health Sciences Project: Summer Bridge for Nursing (1.3 Student Performance)   Incomplete

This course has been designed, in collaboration between nursing, science and mathematics departments, to reduce gaps in achievement and increase student performance in the nursing program.

Deadline	Activity	
Spring 2014	Discuss implementation	Overdue
Spring 2014	Schedule meeting	Overdue
Summer 2014	Offer Course	Overdue

Mathematics and Science Project: Computer Access for Chemistry Students (2.1 Support Underprepared Students)   Incomplete

The chemistry department has several chemistry tutorial programs that are installed on the computers in the chemistry laboratories at the main campus. However, students do not have access to these programs outside of class. Also, chemistry students often need a quiet place to study, to work with their lab groups or a place to do their chemistry online homework. Many students desire to use the chemistry tutorials and need a place to work together to develop a community or study group which will help them to succeed. To help students achieve access to reliable computers and the chemistry tutorials and software, the chemistry faculty will develop resources and funding to allow faculty to facilitate "open lab" hours so that students can access the computers in the chemistry laboratories when the labs are not in use for a class and to provide a quiet place to study and do homework. They will also work with IT to install these programs on the computers at the library and the Academic Success Center and both the Vacaville and Vallejo centers.
Furthermore, the chemistry software is becoming outdated and is no longer supported. Chemistry faculty will research other possible chemistry tutorial software programs.

Deadline	Activity

Evaluations from Tutees indicate peer tutors have a good command of the subject matter to provide academic support. See end of semester evaluation comments below from students that used tutoring services at the main campus and the centers:

Eval comments:
* Tutors have been most helpful and I don't think I would be passing this class without my tutor at the Vacaville campus.
* Tutor was helpful in explaining subject in a more simplified way. He did his best in using my learning style.
* My tutor was very helpful. She made me understand why we do editing of the paper. She asked me questions related to the writing process. She emphasized about using my own words.
* The tutors for Math and English were well informed on the subject, very patient in making sure you understand the process of working Math problems and with English very detailed in how you should write your papers, citing all your sources, understanding how to write using differenct techniques; who, what, where, when, why and how. They are great tutors at the Vallejo campus.
* I don't know how I would have passed without help from my tutor. She explained things in a way I could understand and made sure I understood before we were done.
* The Tutoring Center is the most valuable resource for learning material in my classes. The Tutoring Center has helped me get better grades.

Financial Aid Project: Cohort Default Prevention (CDR) Plan Implementation (4.2 Maximize Institutional Effectiveness)   Complete

Solano Community College has created a default prevention task force as required by the regulation at 34 CFR 668.217. The Task Force is responsible for overseeing the entire default prevention effort, performing an executive and management function for the life of the project.   The Cohort Default Prevention Plan was approved by the U.S. Department of Education on December 12, 2013.

Role of Our Default Prevention Task Force
As mentioned above, our task force will perform an executive and management function in the default prevention process, from creating the default prevention plan to monitoring results and making changes as necessary in the future. Here are the responsibilities of our task force:
•   The task force has conducted an analysis to determine who is defaulting, and why.
•   The task force has created, from this analysis, a set of measureable interventions/steps that address the results of the foregoing analysis (i.e., risk that comes from poor educational outcomes, poor employment outcomes and/or poor repayment outcomes)
•   The task force has created a set of strategies to execute these steps, assigning responsibility for carrying out these steps; establishing a set of measures to determine the effectiveness of these efforts; establishing deadlines for reporting results.
•   The task force will monitor and measure the results of these steps and where necessary, make adjustments so that our goals will be achieved; and
•   The task force will, as it deems necessary, take other general steps to reduce both default rates and default risk among Solano Community College student borrowers.

Mathematics and Science Project: Solano County Math Steeplechase (3.2 Expand Community Ties)　　　　　Incomplete

Solano College, with cooperation and financial support from the Math Educators of Solano County, has hosted the Solano County Math Steeplechase for the past two years. The Math Steeplechase is a county-wide math competition for high school students. The Steeplechase participants will be racing around the SCC main campus in teams of four to find problem solving stations organized throughout the campus. The purpose of the Steeplechase is to promote problem solving and an enjoyment of math by solving challenging and fun problems with a collaborative effort. By holding the competition at SCC we hope to increase awareness of the higher education opportunities at Solano. This year, I would like to enlist the help of MESA students to make the Steeplechase become a reality. The competition would take place on Thursday, October 16, 2014, from 8:30am to 12:30pm with the students beginning and ending in the back half of the cafeteria for refreshments.
