

Solano Community College

Human Services Program Advisory Board E-Minutes

(previously scheduled face to face March 9th, 2016 meeting)

Consultation with: Katherine Schwartz, Laura Kelly, Dorothy Laney, Marianne Flatland, Saki Cabrera

- I. BAC discussed with Katherine. Supports behavioral interventions and added requirement for students to understand development from a biopsychosocial perspective. Discussed site visit to Aldea to include and Q&A with providers.
- II. Mental health services discussed with Dorothy Laney. Recommends increase of mental health services at SCC. Discussed utilization of presenters from the Speakers Bureau and creation of a NAMI support group on campus. Will propose the recommendation to THC.
- III. Discussed substance use with Laura Kelly. Confirmed the integration into CCAPP. Importance of recovery and challenges with site compliance and supervision. Agrees that without enough dedicated professionals to devote to the certificate that we should wait until we are able to hire a full time person to implement a certificate, although the need is evident.
- IV. Ongoing consultation to continue via telephone and email over the semester was encouraged given busy schedules and efficiency in outcomes.
- V. Advisory Board members will be notified of the next face to face meeting proposed for fall 2016.
