

## **International Transcript Evaluation Process and Services**

Students that have attended a college outside of the United States who wish for Solano College to consider their units be applied towards a degree or certificate may have their International transcripts evaluated by outside credential service.

International transcript evaluations will be at the expense of the student. Solano College reserves the right to refuse any courses and does not guarantee that having an International transcript evaluation will yield any transferrable coursework.

All evaluations will need to be done using a detail report with course level identification/course-by-course method and translated into English (if applicable).

Only coursework as determined by one of the following International credential evaluation services to be equivalent to a regionally accredited college in the United States will be considered as being potentially transferrable to Solano College. Only evaluations from the list below will be accepted.

International Credential Evaluation Services:

Academic & Professional International Evaluations, Inc. (APIE)
