- II. Minutes of September 25, 2015 were approved as submitted. M: Randy, S: Curtiss
- III. Old Business
 - A. Update on new database: Senate President Wyly deferred screening and selection of the new database to the Assessment Committee. Kevin suggested we look at other options (besides Currinet and Argos).
 - B. Most of the meeting was spent on identifying the course(s) that will be used to assess GELOs. We want to use assessments already done for courses rather than make separate assessments for GELOs or ILOs. We tried to have courses from all Schools represented. We also selected courses that would have good student populations (some courses would work well, but we thought the lower enrollments might be an issue). But so far:
