Course information shown is not the final class schedule, but instead those classes typically taught in the spring semester, so the final list may vary. Information provided includes course title and number of units. Full course information including days, times, instructor, and CRN will be available online at www.solano.edu on October 29 (click on "MySolano"). This information will be updated frequently. Classes may be offered online, on main campus or at one of our center locations:

FAIRFIELD CAMPUS: 4000 Suisun Valley Road Fairfield, CA 94534 707.864.7000 • FAX 707.864.7175 VACAVILLE CENTER: 2001 North Village Parkway Vacaville, CA 95688 707.863.7872 • FAX 707.448.8611 VALLEJO CENTER: 545 Columbus Parkway Vallejo, CA 94591 707.642.8188 • FAX 707.552.8924

Admission to the college and enrollment in classes (registration) is done entirely online. Before you register for classes, you must have completed an application online (www.solano.edu).

Course information shown is not the final class schedule, but instead those classes typically taught in the spring semester, so the final list may vary. Information provided includes course title and number of units. Full course information including days, times, instructor, and CRN will be available online at www.solano.edu on October 29 (click on "MySolano"). This information will be updated frequently. Classes may be offered online, on main campus or at one of our center locations.

Course information shown is not the final class schedule, but instead those classes typically taught in the spring semester, so the final list may vary. Information provided includes course title and number of units. Full course information including days, times, instructor, and CRN will be available online at www.solano.edu on October 29 (click on "MySolano"). This information will be updated frequently. Classes may be offered online, on main campus or at one of our center locations.

Internship

Internship

Internship

A six year SCC student; graduating with five degrees in Physics, Chemistry, Math, General Science and Liberal Arts; accepted to University of California, Davis in the Fall to major in Chemical Engineering, recipient of the 2012 National Science Foundation-Scholarship for Science, Engineering, Technology, and Mathematics; and Solano College Outstanding Students Achievement in Excellence Award, Abraham Gacad plans to build a career in the field of Cancer research. His ultimate educational goal is to earn his Doctoral Degree in Chemical Engineering; however Abraham's objective for summer 2012 is to obtain an internship in science or engineering for practical application of educational curriculum.

Born in Kuwait, reared in Egypt, and relocated to the United States in 2006 (to live with his father in Vallejo), Abraham experienced lifechanging trials and tribulations along the way to todays' success.

Abraham immersed in his studies and joined academic enrichment programs and student clubs such as: Mathematics, Engineering, Science Achievement (MESA); Mesa Student Society (MSS); National Society of Black Engineers (NSBE); and Society for the Advancement of Chicanos & Americans in Science (SACNAS). "I learned professionalism, responsibility, leadership, and mentoring through the academic programs and clubs. The resources offered at the school have been a great support, my grade point average increased every semester after joining MESA," shared Abraham.

Abraham's siblings, Farrah Gacad (older sister) and Vincent Gacad (younger brother) are also SCC student successes. Farrah graduated from SCC and will graduate with her Bachelor's degree from Sacramento State University in December 2012, and Vincent currently attends Solano planning to run for Presidency of the MSS club in the fall. The Gacad family embodies the SCC mission and vision, congratulations Abraham on your present and future success!

Thinking critically is characterized by the ability to perform:

- A. Analysis demonstrated by the ability to:
 - Apply appropriate rules and principles to new situations

- Discover rules and apply them in the problem solving process
- Draw logical conclusions based on close
- observation and analysis of information
 Differentiate among facts, influences, opinions, assumptions, and conclusions
- **B.** Computation demonstrated by the ability to:
 - Use basic numerical concepts
 - Use tables, graphs, charts, and diagrams to explain concepts
 - Use basic geometrical shapes
- C. Research demonstrated by the ability to:
 State a research question, problem, or issue
 - Use discipline appropriate information tools to locate and retrieve relevant information efficiently
 - Analyze and evaluate information for appropriateness, relevance, and accuracy
 - Synthesize, evaluate, and communicate information using a variety of information technologies
 - Recognize the ethical and legal issues surrounding information and information technologies
 - Demonstrate understanding of academic integrity and honesty
- D. Problem Solving –demonstrated by the ability to:
 Recognize whether a problem exists
 - Identify components of the problem or issue
 - Create a plan of action to respond to and/or resolve the issue appropriately
 - · Monitor, evaluate, and revise as necessary

III. Global Awareness

Students will demonstrate a measurable understanding and appreciation of the world including its:

- A. Scientific Complexities Students demonstrate an understanding of:
 - The scientific method and its application in experiments

• How experiments work

.

- The major differences between social, natural and physical sciences
- **B. Social Diversity and Civics** Students demonstrate ability to:
 - Communicate with people from a variety of backgrounds
 - Understand different cultural beliefs and behaviors
 - Recognize important social and political issues in their own community
- C. Artistic Variety-Students have been exposed to:
 - The visual and performing arts of one or more cultures
 - Analytical techniques for understanding the meaning
 - in the arts, and/or
 - · Hands-on experience with creative endeavors

IV. Personal Responsibility

& Professional Development

A. Self-Management and Self-Awareness – The student is able to:

- Accurately assess his/her own knowledge, skills, and abilities
- Motivate self and set realistic short and long-term goals
- Accept that assessment is important to success
- Respond appropriately to challenging situations
- **B. Social and Physical Wellness** Students make an appropriate effort to:
 - Manage personal health and well being
 - Demonstrate appropriate social skills in group settings
- C. Workplace Skills Students understand how to:
 - Be dependable, reliable, and accountable
 - Meet deadlines and complete tasks

Academic Integrity

HONOR CODE

At Solano Community College, we believe that Academic Integrity is fundamental in an institution dedicated to personal development through learning, free inquiry, and the exchange of ideas. Honest work is an integral part of the learning process: it builds self esteem, knowledge, and skills. It is the responsibility of every Solano Community College student to represent work truthfully and engage honestly in all assignments.

We believe that any instance of academic dishonesty hurts the entire college community. Solano Community College defines academic dishonesty as:

• Plagiarism or knowingly or unknowingly using someone else's ideas, words, or thoughts without giving credit to the source

- Receiving or providing unauthorized assistance on assignments and/or exams
- Using unauthorized materials during an exam
- Fabrication of data or references
- Denying others access to information
- Forgery, alteration, or misuse of documents, records, or identification

Solano Community College will not tolerate Academic Dishonesty.

You are responsible for this information as well as the information available in the Student Handbook, the Schedule of Classes and the Solano Community College Catalog, which is available online at www.solano.edu.

At the heart of any institution of higher learning is the

fundamental right of Academic Freedom for which Honesty and Integrity are preconditions. Academic Integrity is therefore fundamental to the Solano Community College community. Academic Integrity is maintained only when all academic work is the product of identified individuals. Any act of Academic Dishonesty interferes with Academic Integrity and therefore the core values of this institution. All violations of Academic Integrity on the part of any member of the academic community constitute a serious offense.

Examples of Academic Dishonesty include:

Plagiarism:

Plagiarism consists of taking the exact words or the specific substance, structure or ideas of another and

У

Academic Integrity-continued

passing these words or ideas off as one's own in any academic exercise. The following examples are some of the many forms plagiarism may take.

- 1. Submitting a term paper, examination or other work written by someone else. This includes extended paraphrasing of another's work or research. This is a flagrant instance of plagiarism.
- 2. Failure to give appropriate credit for ideas, statements of facts, conclusions, or exact words derived by another either in the text or as a footnote.
- 3. Failure to use quotation marks or appropriate indents when using the exact words of another, whether it be a paragraph, a sentence or even a portion thereof.
- 4. Usage of any electronic media without providing proper citations, including the Internet, email, copied postings, or any other source of information available electronically.
- 5. The citing of a source which does not reasonably conform to these expectations, such as another plagiarized or otherwise undocumented paper or other resource.

Plagiarism can, in some cases, be a subtle issue. Any questions about what constitutes plagiarism should be discussed with the faculty member or a Solano Community College faculty librarian.

Cheating:

Cheating is the usage of unacknowledged or unauthorized notes, materials, information, calculators, electronic devices, or study aids in any academic exercise. Cheating also includes: using information from another student or student's paper; altering a graded work after it has been returned then submitting the work for re-grading without instructor permission; submitting another's work under one's own name. Students must not request others (including commercial term paper companies) to conduct research for them. Students may be restricted from leaving the classroom during an exam period.

Fabrication:

Fabrication is the falsification of any information or citation in an academic exercise. Fabrication includes presenting data not gathered in accordance with guidelines defining the appropriate methods for collecting or generating data or failing to include an accurate account of the method by which the data were generated or collected. "Invented" information may not be used in any laboratory experiment or other academic exercise without authorization from the instructor. The student must also acknowledge reliance upon the actual source from which cited information was obtained. A writer should not, for example, reproduce a quotation from a book review and indicate that the quotation was obtained from the book itself.

Facilitating Academic Dishonesty:

Students who knowingly or negligently allow their work to be used by other students or who otherwise aid another student in violating Academic Integrity are guilty of Academic Dishonesty even though they may not benefit directly from the violation. Facilitating Academic Dishonesty includes making one's research, notes, essays, or other work available for other students to access such as uploading one's work to the Internet or making it otherwise available.

Denying Others Access to Information:

It is a violation of Academic Integrity to deny others access to scholarly resources, or to deliberately impede the progress of another student or scholar. Examples of offenses of this type include: giving other students false or misleading information; making library material unavailable to others by stealing or defacing books or journals, or by deliberately misplacing or destroying reserve materials; or altering computer files that belong to another.

Forgery, Alteration or Misuse of Campus Documents, Records, or Identification or Knowingly Furnishing False or Incomplete Information to a Campus:

It is a violation of Academic Integrity to alter documents affecting academic records. It is also a violation to forge a signature of authorization or to falsify information on an official academic document, election form, grade report, letter of permission, petition, or any document designed to meet or exempt a student from an established College academic regulation.

Sanctions:

All violations of Academic Integrity are subject to an appropriate penalty. Violations at Solano Community College are classified into three levels according to the severity of the infraction and the discretion of the instructor and/or Executive Vice President Academic & Student Affairs. For each level of violation, a corresponding set of sanctions is recommended. These sanctions are intended as general guidelines as culpability may be assessed differentially for those with more and less experience as members of the academic community. Examples are cited below for each level of violation. These examples are illustrations and are not meant to be considered all-inclusive.

Any violation of Academic Integrity which occurs within the classroom or the context of a particular class may incur Level One or Level Two sanctions at the discretion of the instructor. The instructor may also choose to refer the student to the Office of the Executive Vice President Academic & Student Affairs for possible further action at the discretion of the Executive Vice President Academic & Student Affairs, including Level Three sanctions. To refer students to the Office of the Executive Vice President Academic & Student Affairs, faculty may contact the Office of the Executive Vice President Academic & Student Affairs directly or use the Solano Community College Academic Dishonesty Report Form.

For a complete copy of the Academic Integrity policy, please refer to the SCC online catalog.

Acknowledgements:

The Academic Integrity description was updated in Spring 2005 by a committee composed of SCC faculty appointed by the Academic Senate. Comments and suggestions were made by deans, faculty, students, and staff in the various academic units. The previous SCC academic integrity description and the policies/ descriptions of other major public institutions were consulted, especially Rutgers University, New Brunswick. Solano Community College is indebted to all those who have contributed their ideas.

Illegal Distribution of Copyrighted Materials

Solano Community College students are prohibited from using the Solano Community College District network to illegally download or share music, video and all other copyrighted intellectual property. Solano Community College supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the Solano Community College network who have violated the law. Illegal use of the Solano Community College network constitutes a violation of the Acceptable Use Policy for our Internet Service Provider, the Corporation for Education Network Initiatives in California (CENIC).
