The first year in college is critical to a student’s academic success. It builds the foundation for their future academic endeavors. In recognition of that, Solano Community College has implemented a comprehensive First Year Experience Program that facilitates your transition into college life. The FYE program will provide you with a supportive and structured environment for your first year in college while fostering a connection with faculty, students, and support services to sustain you throughout your education.

FYE empowers you to set and obtain goals, to become positive and contributing members to the campus and the community, and to achieve your full potential as independent, lifelong learners.

Benefits of FYE
- Priority registration
- FYE counseling
- Designated FYE faculty
- Embedded tutors
- Established learning cohort
- Field trips

Start your college career on the path that leads to success!
The First Year Experience  program (FYE) is designed to provide you with the opportunity to participate in a uniquely supported program while transitioning from basic skills to college level courses, setting the foundation for your college success.

Each student will be placed in a cohort during their first fall semester at Solano, and will continue with their group throughout the year. In addition to your courses, you will be provided with supplemental experiences such as field trips, community service activities, and team-building exercises to help foster positive relationships among students.

The FYE program at Solano Community College is dedicated to helping you reach your full academic potential.

Eligibility

1. New student with current SCC application.
2. Complete English and math assessment test and meet eligibility below.

English eligibility—score of 101 or less on assessment test.
Math eligibility—Eligible for Pre-Algebra, Elementary Algebra, or Intermediate Algebra

Optional classes may vary by semester

The Math class you will take depends on your math assessment. Your class will be provided with an embedded tutor for additional assistance to ensure that you are gaining the necessary skills to be successful in advanced college level math courses required for transfer.

Math Component

The Math class you will take depends on your math assessment. Your class will be provided with an embedded tutor for additional assistance to ensure that you are gaining the necessary skills to be successful in advanced college level math courses required for transfer.

Counseling Component

Students will be provided with a counselor dedicated to the FYE program participants. Students will work closely with the counselor throughout the year meeting one-on-one for a minimum of two times a semester to ensure you are on the right track, to develop your educational goal, and to create an education plan (SEP) in accordance with your goal.

In addition, you can choose to participate in supplemental experiences with the counselor and program participants. Opportunities such as field trips, community service activities, and team building exercises designed to provide an outlet for program participants to develop lasting connections amongst each other will be scheduled throughout the semester.
