Discussion: for athletic trainers transferring to a 4-year college. Met with Sac State athletic faculty and they recommended courses that are offered as lower division/general education/science classes which should be completed before transfer. BIOL 005 (physiology) was eliminated based on feedback from 4-year colleges where it is offered as upper division requirement. There was additional debate about taking physics at SCC versus 4-year colleges, so students are not confused about the science requirement.

Vote: approved unanimously

10. Major Deletions

None

11. Report from Chair

Final two meetings of semester will be focused on the Baccalaureate Degree; Curtiss will meet with Chancellor's Office later in the week to discuss courses to make up the major.

Thao and Marianne working on the International Baccalaureate for General Education; Marianne advised that SCC is behind in getting into curriculum process; went through Academic Senate but not CC; most community colleges speak to equivalents; having trouble pinning down final docs from senate; displaying Mira Cosa's program (which follows the standard similar to AP). Courses include biology, chemistry, economics, etc. Typically it would go through the curriculum committee rather than senate. Credit toward graduation. It breaks down the way that it is used at each 4-year schools and equivalents in semester units; does not count toward excess units. Lisa recommended that the senate documents be located so that they can review the discussion. Will review board minutes and see what action has been taken and discuss in the next academic senate meeting
