The EOPS Program at Solano Community College is pleased that you are interested in becoming a part of our program and requesting assistance from the EOPS Program and support staff. We want to share with you that providing assistance to you will be based on our funding and the number of slots that are available for the Fall 2015 semester. Below I am outlining the priorities we will use to serve new potential EOPS students for the Fall 2015.

Our first priority:

- Continuing EOPS students who have fulfilled their EOPS Mutual Responsibility Contractual requirements will be served first.

- Based on the funds we have available, we will serve new EOPS students according to the number of slots we have available from non-returning EOPS students. We will begin with students that submitted an EOPS Application during this recruitment period for Fall 2015.

- It is important to know that even though you may meet the program’s eligibility requirements, due to limited number of slots and funding we will not be able to serve all students that have submitted an EOPS Application. Incomplete applications will be disqualified immediately.

Next:

- If you are eligible for the EOPS Program, we will begin calling eligible students to schedule EOPS Program Review and counseling appointments for the Fall 2015 for our new EOPS students. Non-eligible students will receive a letter in the mail regarding their status.

- During your counseling appointment, you will be working with the EOPS counselor to develop a comprehensive Student Educational Plan. You will have a Student Educational Plan that will be your “roadmap” for your academic success.

Final note:

- It is always important that you complete or submit your FASFA (Financial Aid Application) for the 2015-16 beginning in January 2015 to help with your educational expenses.
