

Three State Priorities

Notwithstanding any other provision of law, the Chancellor of the California Community Colleges may reduce community college district base workload measures to match available funding under Schedule (1), which reflects a base reduction of \$290,000,000 to support community college district general apportionments. It is the intent of the Legislature that community college districts, to the greatest extent possible, shall implement any necessary workload reductions in courses and programs outside of those needed by students to achieve their basic skills, workforce training, or transfer goals. On or before April 15, 2012, the chancellor shall provide the fiscal committees of both houses of the Legislature and the Director of Finance with a report on the implementation of this provision.
