# SUBJECT: DESIGNATION AND DISPOSAL/DISPOSITION OF DISTRICT SURPLUS EQUIPMENT AND PROPERTY, RESOLUTION NO. 10/11–24

# **<u>REQUESTED ACTION</u>**: APPROVAL

# **SUMMARY**:

In October, staff readied two retired surplus fire trucks for disposal, but was asked to further research their possible retention. That research has been accomplished. It has been confirmed that the retention of the fire trucks cannot be legally accomplished. In addition, the staff in the Science building has recently accomplished a major "housecleaning," providing several boxes of surplus small equipment. As we continue to "clean house", and in compliance with the 81000 series of the <u>California Education Code</u> for appropriate disposition methods and/or restrictions, staff is requesting approval of the attached Resolution No. 10/11–24 authorizing disposal of the surplus Science equipment and the two 1978 retired fire trucks (a GMC and a Howe), which have been tagged "retired" and staged for their required removal from the state for private auction.

Staff is also recommending that the surplus Science equipment be donated to the Mars Hill Christian School per their attached request letter.

Dr. Frances "Betsy" Julian Dean, Division of Math and Science Solano Community College

Dr. Julian:

We are very interested in the possibility of receiving a donation of used science equipment from Solano Community College for use in our science department.

Mars Hill Christian School is a private, K-12 educational institution located in Fairfield, CA, educating students from Solano County. We rely highly on technology in the classroom. We incorporate hands-on science labs & projects weekly for all students in science classes from 6<sup>th</sup> grade through high-school.

Dr. Kathy Conrad, a friend & wonderful teacher, directs our program. Though she is very fiscally responsible, we simply do not have the funds available to purchase all the equipment we need.

You may learn more about our school by visiting www.marshillchristianschool.com or by calling our school office at 707.427.2665. My extension is #4 and I would be happy to speak with you at any time.

Thank you very much for your consideration.

c. Provide an explanation on how the district intends to fund the salary and benefit increases, and also identify the revenue source/object code.

VI. Did the district have significant events for the quarter (include incurrence of long-term debt, settlement of audit findings or legal suits, significant differences in budgeted revenues or expenditures, borrowing of funds (TRANs), issuance of COPs, etc.)?

If yes, list events and their financial ramifications. (Enter explanation below, include additional pages if needed.) The 12/31/10 cash balance was positive and the district did not have to invoke provisions of Government Code section 23010, Subdivision (b), authorizing the County to advance up to 85% of the District PY 2010/11 anticipated revenues. First quarter apportionments totaling \$8,881,503 were received late October and the district also received its share of property taxes in December. However, cash flow remains a matter of concern for the district and assistance from the County, under the provisions of Article XVI, Section 6 of the California Constitution, Is a continuing resolution for the 2010/11 fiscal year.

VII.Does the district have significant fiscal problems that must be addressed?	This year? Next year?	YES YES

If yes, what are the problems and what actions will be taken? (Enter explanation below, include additional pages if needed.) Student demand and resulting demand for financial resources remains strong in the district. Student access remains a priority while resources continue to decline. The District budget was adopted by the Board on September, 15, 2010. The adopted budget included on COLA once again and, due to the uncertainty of state revenue and the possibility of the state budget discussions being reopened midyesr in 2010/11 ne growth funding was included. This is the third year of essentially level revenue budgets as certain fixed costs continue to rise for the district. In order to stay even under these circumstances means the district must cut "discretionary" expenditures by approximately \$1M per year to maintain a balanced budget. There is no question this ultimately impacts quality and quantity of service delivery.

# SOLANO COMMUNITY COLLEGE DISTRICT GOVERNING BOARD AGENDA ITEM

# TO:Members of the Governing BoardSUBJECT:NORTH AMERICAN BOARD OF CERTIFIED ENERGY<br/>PRACTITIONERS (NAPCEP) PHOTOVOLTAIC (PV)<br/>ENTRY-LEVEL EXAM

# **<u>REQUESTED ACTION</u>:** INFORMATION

# **SUMMARY**:

Mr. Paul Fair, Green Education Program Manager, will report on the North American Board of Certified Energy Practitioners (NAPCEP) Photovoltaic (PV) entry-level exam. Solano Community College submitted an application to be a registered NABCEP PV entry-level exam provider and an approved test center. We were subsequently approved as a registered NABCEP PV Entry Level Exam Provider on January 13, 2011. Through NAPCEP, we would not only teach students about PV systems, but would be able to test students for national certification.

The annual fee to retain our Exam Provider status is \$300 per year. In the future SCC will be able to charge students to take the exam at our college to cover the costs of test administration.
