

**Solano Community College District**

**Addendum # 1**

to

**Request for Proposals No. 11-007**

for

**Consultant for the Development of a Facilities Master Plan Update**

---

**August 17, 2011**

Dear Proposer:

The following changes or additions are made to the above-referenced Request for Proposal.

Page 3, paragraph 5 of the Request For Proposals No. 11-007, **Consultant for the Development of a Facilities Master Plan Update**, item number 7 states that the capital plan will include a “review and update of building and landscape design standards.”

Unfortunately these standards do not exist in a single, formal, documented fashion which would allow for distribution or referral to them. **Assume for purposes of response that the plan would include identifying standards that do exist, create new where needed in consultation with the district and document the result.**

**Please acknowledge receipt of this Addendum via email.**

Sincerely,

Roy Stutzman,  
RFP Coordinator
