Re: Solano Community College District
New Child Care Center, Bid 12-001, Bid Opening May 31, 2013

Solano Community College District wishes to thank you for your interest and courtesies shown to the District during our process for the Child Development Center Project at the Fairfield Campus that is referenced above.

After careful review of the bid submittals received as a result of the above referenced bid number, the District has decided to reject all bids due to budgetary constraints. It is the intent of the District to review this project and determine the best course of action for a new bid in the near future.

On behalf of Solano Community College District, I again want to sincerely thank you for your proposal response to the District, and assure you that your firm will continue to be considered for future building requirements.

Sincerely,

Yulian Ligioso
Vice President, Finance & Administration, SCCD
