Fairfield, CA 94534

Re: Solano Community College District Bid 14-001, which opened August 27, 2013

Solano Community College District wishes to thank you for your interest and courtesies shown to the District during our process for the Building 1100 Abatement and Demolition Project at the Fairfield Campus that is referenced above.

After careful review of the bid submittals received as a result of the above referenced bid number, the District has decided to reject all bids, as this project has been canceled.

On behalf of Solano Community College District, I again want to sincerely thank you for your proposal response to the District, and assure you that your firm will continue to be considered for future building requirements.

Sincerely,

Leigh Sata
Executive Bonds Manager
