STEM Scholarship Program

The STEM Scholarship Program (21SSP) is in its third year at Solano Community College, and will expand by accepting a new group of students this spring 2018. The program is funded by the National Science Foundation (NSF) Scholarships in Science, Technology, Engineering, and Mathematics Program (S-STEM).

Two information sessions are planned – August 31 at noon in room 804 and September 14 at 2pm in room 434.

The application for new scholars to start in spring 2018 is now open in AcademicWorks and it's due October 15.

The website www.solano/21SSP has links to the application website and the required recommendation form.

The purpose of the program is to support academically talented and financially needy students to attain an associate's degree in a STEM major and/or transfer to a four-year university. In addition to financial assistance, support services are built into the program to promote student success.

For more information, contact Math Professor Genele Rhoads.

A Reminder...

Just a reminder that in the event of a medical or first aid emergency please call 911 from any phone or 707.421.7090 (Sheriff dispatch directly) from a cellular phone. You can also call the Campus Sheriff's Office duty phone at 707.580.6526 to report the emergency.

MESA & Puente Students Visit UCLA

In late July, seven MESA-TRIO and three Puente students flew down to UCLA for a campus tour and overnight stay. Highlights were a campus tour led by a UCLA transfer student and visits to the transfer center and a research lab, as well as a presentation from financial aid. At dinner, students had the chance to mingle and talk with professors and the director of residential life to learn more about what it's like being a student at UCLA.

The trip was organized by Gretchen Harris, Assistant Director of Transfer Admission. During the visit, Harris

talked with the group about applying to UCLA, providing tips on what admissions officers look for when evaluating UCLA applications. The came away empowered with knowledge of what is expected of them when applying to UCLA. MESA-TRIO student Rosario Doctolero-Ortiz remarked, "Without this experience I would not have considered applying in the future to this campus." Gretchen Harris will be back on the Solano campus to talk with our students and counselors on Monday, October 23. Her visit will include a presentation on the UC Personal Insight Questions, which will be held from 1:00 to 2:00 pm in the transfer center, room 402.

SCC Students Spend Two Weeks in Paris

Welcome back to the 10 SCC students, along with professor Lorna Marlow- Munoz, who spent a two-week adventure in Paris over the summer.

Students were hosted by French families in the suburbs of Paris. These students had the opportunity to be immersed in the French culture 24 hours a day and visited several monuments each day.

Professor Marlow- Munoz accompanied her 8th group from SCC and organized all the activities in order to offer this experience to Solano students.

Those who went had to have completed at least 2 semesters of French and hope to use French in their future careers.

Tomato Recipes Available in New Cookbook

Looking for new ways to eat all the tomatoes coming in season now? SCC's Career and Technical Education departments gathered recipes for the recent Fairfield Tomato Festival and gave away the cookbooks which can be found at the link below.
