**PUBLIC SAFETY ACADEMY**  
230 ATLANTIC AVE., FAIRFIELD

This community event will provide information and resources on the opioid crisis afflicting communities. This event's primary focus is to educate families on the dangers of fentanyl, a synthetic opioid drug that is **100x stronger** than morphine and **50x more potent** than heroin.

Information will be presented by Fairfield Police Dept., Fairfield Fire Dept., Solano Public Health and Solano Collaborative Courts. The presentation will be followed by a Q&A session.

An additional session for Spanish speakers will be offered at a future date.
