

Academic Senate Resolutions

Our resolution is as follows:

We, as faculty, members of the Academic Senate and part of the collective group of Solano Community College resolve to provide equal access and student equity for all groups including the colleges' students with disabilities.

We, as faculty and members of the Academic Senate are committed to eliminating all architectural and academic barriers that exclude the colleges' students with disabilities from participating in instruction (traditional classroom or online dist. Ed), campus programs, activities or events.

We, as faculty and members of the Academic Senate resolve to reinstate the Learning Disabilities program in its' entirety: The LD specialist/instructor full-time position and the corresponding (LS), Learning Skills courses for evaluating students with disabilities for a learning disability and helping them to develop compensatory strategies for success.

We, as faculty and members of the Academic Senate resolve to reinstate the Adaptive Kinesiology courses, Kine 001A and Kine 001D by hiring and maintaining an instructional aide for the courses so students can safely and successfully complete the course and meet the local district requirement for graduation for an associate degree using Option A.
