SOLANO COMMUNITY COLLEGE DISTRICT

ADT RECIPROCITY   **62XX**

PROCEDURES

The Superintendent-President shall ensure that credits taken at other regionally accredited colleges and universities, which meet an ADT requirement at the original institution, may be accepted by Solano Community College to meet ADT requirements.

Since Transfer Model Curricula (TMC) that individual colleges use to create AA-T and AS-T degrees can be broad in their offerings, and since curriculum varies widely across institutions of higher education, it is not unusual that a specific course will be chosen to meet the ADT requirements for one institution but not for another. In such cases, it will be the policy of Solano Community College to accept ADT credit (assuming courses are consistent with the parameters of the TMC for the specific discipline) in the following scenarios:

(1) If a specific course meets an ADT requirement at one institution but the comparable course at SCC does not meet that requirement locally, SCC will accept the course for units and for the identified ADT degree category.
(2) If a specific course meets an ADT requirement at one institution but a comparable course does not exist at SCC, SCC will apply the course for satisfaction of the ADT degree category. Acceptance of the course for General Education units is subject to the Course Substitution policy of the college.
(3) If a student took a course at SCC that satisfied an area of the ADT degree at the time the course was taken, the course will be honored for that ADT degree area even if the course is no longer offered at SCC, assuming the ADT being used still fits the framework of the TMC for that specific discipline.
