

Quick Reference Guide different COVID-19 Scenarios FALL 2022

Boosted OR Fully Vaccinated (but not yet booster eligible individuals OR those who have tested positive within the last 90 days (which qualifies as **immune status**))

ANTIGEN tests are available on campus and can be requested at the covidcaseworker@solano.edu email. These can be scheduled for pick up at the 1700 (gym building) roundabout or will be delivered to your office/location on campus

Unvaccinated individuals or fully vaccinated individuals exposed to COVID -19 or testing positive would follow the below scenarios to determine when they can resume on campus activities.

Scenario	Manager/Supervisor action	Manager/Supervisor communication	Requirements to return
<p>#1 Employee Exposures for those with immune Status (Listed above)</p> <p>Exposed as defined by CALOSHA is being within 6 feet of someone for 15 minutes or more cumulatively in a 24 hour period, with or without the wearing of masks.</p>	Employee is instructed to cc their manager/supervisor of that employee's area and send an email to covidcaseworker@solano.edu	No further communication by the manager Covid caseworker will include manager in communications.	<p>The employee may continue working and remain on campus AND must wear a mask when around others. They will get tested on day 5 (most accurate testing window)</p> <p>IF POSITIVE they will isolate and follow POSITIVE COVID protocols</p> <p>IF NEGATIVE they will continue day 6-10 to wear a mask around others, NO testing is required after day 10</p> <p>ANTIGEN tests are available through the COVID caseworker email</p>
<p>#2 Employee Exposure for COVID-19 who is NOT vaccinated, or fully vaccinated but NOT boosted</p>	Employee is instructed to cc their manager/supervisor of that employee's area and send an email to covidcaseworker@solano.edu	No further communication by the manager Covid caseworker will include manager in communications.	<p>DO NOT GO TO WORK. The COVID caseworker will advise return for those who are fully vaccinated (But NOT Boosted) may continue to work if symptom free. Testing required Day 5 for all, isolation for those POSITIVE</p> <p>Day 6 -10 Those Negative and with NO symptoms, can return to work on DAY 6 AND wear a mask when around others. NO testing required after day 10 . ANTIGEN tests are available through the COVID caseworker email</p>
<p>#3 Employee tests POSITIVE for COVID-19 for those with immune status (listed above)</p>	Employee is instructed to cc their manager/supervisor of that employee's area and send an email to covidcaseworker@solano.edu	No further communication by the manager Covid caseworker will include manager in communications	<p>If you feel sick at any time, Day 0 is first sick day. If never sick, Day 0 is the day you tested positive. Stay home and retest on or after Day 5.</p> <p>If test is negative AND no fever, or symptoms have improved, you may return to work on campus, AND continue to wear a mask around others. If test is POSITIVE continue to isolate. ANTIGEN tests are available on campus through COVID caseworker email. NO testing is required after day 10, regardless of previous testing results (you are no longer contagious)</p>
<p>#4 Employee Tested POSITIVE for COVID-19 who is NOT vaccinated, or fully vaccinated but NOT boosted</p>	Employee is instructed to cc their manager/supervisor of that employee's area and send an email to covidcaseworker@solano.edu	No further communication by the manager Covid caseworker will include manager in communications	<p>If you feel sick at any time, Day 0 is first sick day. If never sick, Day 0 is the day you tested positive. Stay home and ISOLATE for 10 days if unable to test or if you test positive on day 5</p> <p>ANTIGEN tests are available on campus through COVID caseworker email. NO testing is required after day 10, regardless of previous testing results (you are no longer contagious)</p>
<p>#5 Students and staff with Symptoms or have tested POSITIVE MUST STAY AT HOME and may reach out to COVID caseworker for advice on testing and treatment</p> <p>SYMPTOMS are NO longer a primary indicator of COVID-19, but should be monitored.</p>	Faculty who is notified by the student should advise the student to send an email to covidcaseworker@solano.edu	No further communication by the faculty required. The COVID caseworker will include faculty in communications	<p>Students with symptoms will be advised to medicate, monitor and test if appropriate.</p> <p>Students will be referred to TEST AND TREATMENT locations in a convenient location which are currently open and Free. They will test and immediately treat those who have tested positive for COVID 19</p> <p>Students may also request an Antigen (home) test from COVID caseworker email while supplies last.</p>
