

## Guided Pathways Meeting Notes Monday, October 17 , 2022

Melissa opens meeting

- How is the planning developing for the program showcase event?
- Melissa will be meeting with James Thomas about building the landing page and the showcase for the event.
- BioManufacturing will be added to the event
- Chemistry decided to join during the flex meeting

Best time for information to be pushed out to students will likely be an electronic media push, which will encompass social media and college website is the week before our event

- Carlos and Nazia has already created Zoom Meetings and communicated to the contacts – thank you!
  - Some coordinators still need to add your Zoom links
  - Session descriptions
    - Michael Silva and Andrew McGee already exciting description
    - If possible, put something that would introduce the concept of the program keeping in mind that the concepts behind our event is raising awareness
    - What's cool about their program
    - Students want a couple of lines that will grab their attention

ACTION ITEMS:

- Coordinators that have not, please add Zoom links to the Event Schedule page
- Connect with program contacts for a succinct session notes that can draw in students
  - Please aim to have this done by this Friday, October 21, 2022
