

Guided Pathways Meeting Notes Friday, April 1, 2022

Action items:

- Web page input: We would like the Tassel pages in the Guided Pathways area to also link back to program pages (in “Explore Programs”) so students also have the option of getting to the additional program info (faculty, careers / salaries, events, etc.)
- Melissa & Nazia to meet next week to determine what’s needed (& possibly create it) to update Counseling presentation slide
- Coordinators will meet 1-on-1 with Irving next week or the week after Spring Break to work through process of standardizing GE
- Waiting for Dr. Cabrera to inform us of high-interest programs from Adult Ed outreach; Coordinators will reach out to faculty leads in those areas to create short interview videos to share with adult schools
- Melissa, Kristen & Carlos are involved in the effort to clarify messaging to students about gateway math course options
- Coordinators will hold a special meeting 4/29 to begin to plan the June working retreat
- AY 2022-23: Create “Welcome to....” Program videos to send to incoming students based on the majors they select in CCCApply.
