## Cosmetology Helps Fire Victims & First Responders

The SCC Cosmetology department wanted to show their appreciation to the residents and staff who took food, water, supplies and donated items to the victims and first responders of the recent Atlas fire by offering their services.

The students pampered them with haircuts, facials, manicures and pedicures. The students enjoyed it immensely and many of the clients had never experienced these services before. Last week First Responders were invited to get some pampering as well!

Thank you to all who made this a big success.
