### ***What is Professional Development? Who Participates?***

Professional development (PD) is the continuous process of building knowledge, skills, and abilities as related to one's role in the institution. Not only does professional development benefit the individual with enhanced expertise and sharpened skills but it also supports the mission of the entire organization. Solano Community College supports the professional development of its administrators, faculty, and staff.

***All are welcome to participate!***

#### **Staff Participation**

Classified and Management Staff are strongly encouraged to attend PD workshops and staff development activities. Participation should be arranged with the immediate supervisor.

#### **Full-Time Faculty Participation**

Full-time faculty are required to complete six (6) hours of flex activities for each designated flex day over the course of the academic year. Regular faculty not completing the flexible activities can use appropriate leave (Article 23.3).

#### **Adjunct Faculty Participation**

Adjunct faculty are not required to complete any Flexible Calendar hours or activities. However, the college encourages the participation of all faculty in campus dialogues and professional development activities and will compensate adjunct faculty for their participation according to Article 23.2.5 of the Faculty Contract.
