From the website:

Since its founding in 1965, the University of California, Santa Cruz, has earned international distinction as a university with high-impact research and an uncommon commitment to teaching and public service.

A campus with world-class facilities and one of the most visually spectacular settings in higher education, UC Santa Cruz offers rigorous academic programs and cutting-edge research opportunities that guide students in how to think, not what to think. A commitment to environmental stewardship and community engagement are central to the core values of UC Santa Cruz.

Majors: 64 majors within 5 different academic divisions. You can find a list of majors here:

Fun Fact: UC Santa Cruz is broken up into 10 themed residential colleges, one of which you become affiliated after admission. You can learn more about each of the colleges here:
